

## Autobooks Payment Form

Autobooks offers the Payment Form to businesses that are looking for additional options to getting paid from their customers.

Every business that enrolls in Autobooks receives a unique Payment Form link. Payments collected through the Payment Form are subject to the same fees and processing times as invoice payments, and like all Autobooks payments, settle directly into the business owner's checking account.

The Payment Form also comes in a Mobile App, available for Apple and Android devices. Once the app is downloaded, their mobile device now can be used to accept payments from customers face-to-face.

The screenshot shows a web interface for the Autobooks Payment Form. At the top, there are navigation tabs: "Payment Form" (selected), "Payments", and "Payment Form Settings". Below the tabs, there are two main sections:

- Accept a payment:** This section has a header "Accept a payment" with a menu icon. Below it, the text reads: "Enter your customer's payment information to accept a credit card, debit card, or ACH payment." There is a blue button labeled "Accept a payment".
- Share your Payment Form link:** This section has a header "Share your Payment Form link" with a back arrow icon. Below it, the text reads: "Copy your unique Payment Form link and send it to customers to allow them to pay online:". A blue link is provided: <https://app.autobooks.co/pay/kim-s-business>.
